Motion by Mr. Ormond seconded by Mrs. Moorfield that the chair appoint a committee to make arrangements for June executive supper meeting. The remaining time was taken up with discussion as how to replace some of the services dispensed with on account of budget shortage. It was agreed that the situation should be attacked by an expert. There should be workers' education and work with young people.

Mr. Berkley mentioned five types of work the League might do

1. Do a placement work away from the domestic field.
2. Guidance - no seasonal but the year around.
3. Education of community
4. Field work
5. Housing and health

Mr. Gillette reported his efforts to get certain prominent citizens to give financial aid.

Someone raised the question as to whether the work could be done by a separate organization set up with another name using the facilities of the League.

Question was also raised as to whether the state would pay an industrial worker who would be under the supervision of the present Executive.

Mr. Stavitsky thought that the original sum stated (\$2000) was

not enough since it would require two persons - and that it should be underwritten for at least two years. Dr. Konvitz wondered, if Mr. Hoffman could be approached.

It was agreed that this discussion be resumed at the June meeting.

There being no further business the meeting was adjourned.
